thrive Using Interactive Infographics to Build Social and Civic Competences of Migrant Women

THRIVE in short...

The extent and success of integration can be measured by the degree of parity or equality of outcomes with other members of the receiving or host community. The THRIVE project will directly address this 'parity gap' across the consortium by developing educational and innovative solutions to actively bring people and cultures closer, and help female migrants realise their true civic and social potential through education. Trust is also at the heart of the matter; social inclusion happens at the local level, there is significant value in working with local authorities and communities to cultivate a climate of mutual understanding, trust, and cooperation that THRIVE will build upon. THRIVE aims to harness the potential for learning within female migrant communities that comes with 'always on, always accessible' mobile technology platforms.

THRIVE Transnational Partners Meeting in Lisbon (Portugal)...

On the 28th of January, the partners had a transnational meeting in Lisbon, in a hybrid format. They agreed on the next steps for developing the project, having a very fruitful working day in which they reinforced the cooperation and guaranteed the main outputs of the project:

- Compendium of Interactive Infographic Integration Resources
- In-Service Training Programme
- Infographic Learning MOOC

thrive

Next THRIVE LTTA in Valencia (Spain)...

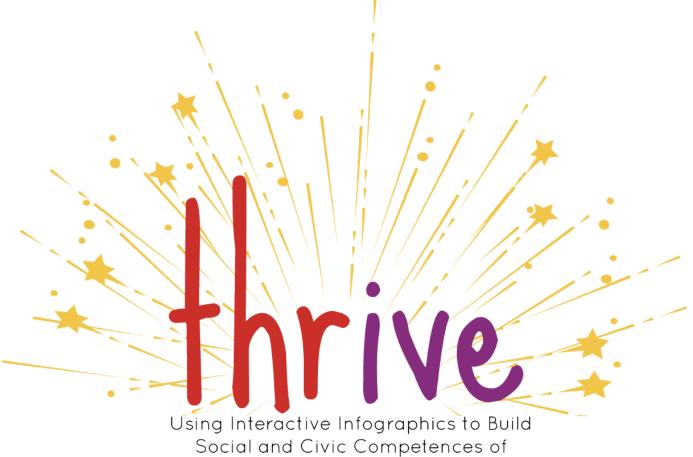

- > Activity Title: THRIVE In Service Training.
- Place and date: Valencia (Spain), 24-26 May 2022.
- All partners will send appropriate and affiliated adult education tutors, intercultural mediators, trainers and guidance experts to this event in Spain, in order to share experiences, learn from each other and develop positive working relationships for the future.
- The Thrive in service training programme will comprise a total of 50 hours of learning. This will include a special 3 day, 21 hour face to face training programme in the practical skills for supporting third country nationals and female migrant learners, including developing new tutoring approaches, facilitation skills, communication skills, intercultural awareness, managing diverse groups and working with learners from different cultures. The balance of the in service training of 29 hours will be provided as self-directed learning supported online through the MOOC.
- The intended result of the in service training LTTA will be the establishing of a transnational group of like-minded, adult education tutors, intercultural mediators, trainers and guidance staff who will support each other and further develop their working relationships into the future.
